TOGETHER WE MAKE IT HAPPEN

WHO WE ARE

Thanks to our more than 20 years of international and Hungarian experience, and our knowledge of the workings of large and medium-sized international audit companies, we have developed our own approach that provides our clients with the greatest benefit.

We provide a statutory activity, but we firmly believe that an audit creates value, and our work transcends beyond just a mandatory audit of financial statements.

It is natural for us that we are always available; this is particularly valuable for our clients.

We are open-minded to the expectations of the owners of our clients, and support the group auditor where required. Given that we strive to be a proactive and competent partner for our clients, we regularly publish news and articles on our website to draw attention to regulatory changes.

HOW WE WORK TOGETHER

Regardless of what sector you operate in, business is about people. Building a trusted relationship with you wherever you take your business is highly important to us. To best service our international clients, we take the time to get to know you and understand your specific needs.

At HLB, we are proud of our strong friendships and professional relationships. When working with us across borders, you can be assured that your HLB team at home and in the territories you're expanding in personally know each other. This is the HLB-way of creating value through real relationships and how we make sure the client experience is seamless. It is through personal and trusted relationships that we deliver on our brand promise:

Together we make it happen.

OUR SERVICES

AUDIT

The main profile of HLB Hungary is auditing annual financial statements and international reporting packages prepared for consolidation purposes. We audit annual reports prepared in accordance with both Hungarian and international accounting standards.

During our work we rely on the internal auditing standards of HLB International and the provisions of the Chamber of Hungarian Auditors. The services offered to clients by our audit division include, but are not limited to, the following:

- audit of Hungarian annual reports
- audit of annual reports compiled in accordance with international accounting standards
- audit of transformation balance sheets
- accounting advisory
- financial due diligence

During our audits the emphasis is on professionalism, reliability and accuracy. We aim to offer services to clients in our engagements that extend beyond the “customary” audit service and therefore provide more added value.

TAX

Our tax consulting services are based on precise knowledge of Hungarian tax legislation. This is the part of our advisory work where we rely most heavily on the international background provided by HLB International. With the help of partner offices who are also integrated into the network, we are able to identify the best solutions for clients even when they concern the tax implications of complex transactions spanning several countries.

The regular professional training of our staff is the key to our clients receiving nothing but the latest information on any taxation issue they have.

ADVISORY

Audit, tax consulting, bookkeeping, payroll. The traditional fields of financial and business consulting as listed here are no longer distinct from one another. Clients require complex consulting to ensure that business decisions can be made with the greatest care and diligence possible. Offering these additional services is what brings added value to our esteemed clients.

Our advisory services include, but are not limited to, the following:

- company due diligences to increase efficiency and lower costs
- supervising the rollout of integrated enterprise resource planning systems
- consulting on access to state and European Union funding
- professional supervision over the design of controlling systems
- support of first-time adaptation of IFRS, preparation of IFRS financial statements
- support of transition of accounting to a foreign currency

Our audit and consultancy firm is part of the Klient Group, which complements our activity with tax consulting, bookkeeping, payroll and legal consulting. Employing more than 120 specialists, the group constitutes a solid base of knowledge and provides professional assistance during audit and consulting services.

INDUSTRIES

We focus our efforts to meet client-needs across a broad set of global industries:
